Subject: USDA Application for the HAMP

Lionel,

Loretta Orona from USDA was on last Thursday's monthly call. She asked about the status of the USDA application for the HAMP. Since the only people from the Hopi Tribe that was on the call were Yvonne and Marie, who did not know about the status of the USDA application, I had indicated to Loretta that the application, minus the financial information, was submitted to USDA in January 2016. Loretta asked who the application was sent to and that she has received only the PER, which she forwarded to Mike Luecker. She has not seen anything else. I told Loretta that I would follow up with you.
